

**TRIPLE L<sup>®</sup>**  
**TRAILERS**

# INCREASE PRODUCTIVITY WITH EFFICIENT, SAFER LOADING

Load equipment and supplies faster and safer with the Triple L® trailer. Unlike ramp and tilt-bed systems, the Triple L trailer features the exclusive Power Deck system, a unique hydraulic mechanism used to lower the entire deck of the trailer to ground level. This eliminates the need to drive, pull, winch or push a payload up or down a loading ramp, which increases productivity and improves safety. The result is a more efficient solution for loading construction and industrial equipment, machines and supplies.

Even hard-to-load equipment becomes a one-person job with a Triple L flatbed trailer. These models are ideal for carrying equipment with low ground clearance or poor traction such as scissor lifts, industrial sweepers, landscaping equipment, pavers, rollers, compactors and more. With nine models to choose from and capacities up to 10,000 pounds—you'll always find the right solution with a Triple L trailer.

# CONVENIENT LOADING FOR EASE OF TRANSPORT

Triple L utility trailers load as quickly and easily as flatbed models, with the added convenience of enclosed sides. These dual-purpose models are ideal for carrying equipment or supplies. A full width, low angle ramp allows for easier loading with a handcart or dolly. Choose from eight models with capacities up to 10,000 pounds. Optional rails and a tailgate can be added or removed at any time for added convenience.

## IMPROVED SAFETY:

- Keeps all loading and unloading at ground level.
- Eliminates chances of dropping cargo off ramps.
- No climbing to access machine tie-downs.
- No heavy, hinged ramps that can come loose or drop.

# POWER DECK ADVANTAGE

- Single lever hydraulic control
- Keeps all loading and unloading at ground level.
- Eliminates chances of dropping cargo off ramps.
- No climbing to access machine tie-downs.
- No heavy, hinged ramps that can come loose or drop.

**LOWER**  
entire deck to  
ground level.

**LOAD**  
equipment

**LIFT**  
to transport  
position

**Large  
Deck**  
Up to 72 inches  
wide to hold  
more payload.

**Quadra Spring  
Suspension**  
For smoother  
transport.

**Low  
Angle Ramp**  
For low  
clearance loading.

**Shielded  
Tail Lights**  
Added protection  
with improved  
visibility.

**Storage  
Compartments**  
Protects  
components  
and tools; lockable.

**Fenderless**  
No protruding  
fenders that  
are susceptible  
to damage.

**Unhitched Loading**  
Trailer can be  
loaded while  
hitched or  
freestanding.

**Single Lever Control**  
12-volt hydraulic  
system is  
proportional in  
both directions.

**Automatic  
Deck Latch**  
Deck automatically  
locks upon raising  
for added security.

**Powder Coating**  
Provides durable  
protective finish.

## Triple L® Trailers

### OPTIONS & ACCESSORIES

#### Trickle Charger

1.5-amp on-board charger with indicator lights.

#### Winch

12-volt loading winch with 12-foot remote control. Flatbed model

#### Spare Tire & Bracket

Mounts conveniently within the width of the chassis.

#### Surge brakes

Heavy-duty actuator with adjustable coupler.

#### Extended Side Rails

Bolted to existing rails for 36 in. or 48 in. heights. UT model only

#### Tailgate

Full width swinging tailgate can easily be removed. UT model

#### Pintle Hitch

Interchanges and replaces standard ball coupler.
